

MAX TENROM

MUSICIAN / PRODUCER / LIVE ACT

ABOUT ME

Max TenRoM was born in Toulouse, the famous Pink City from Southern France. He started playing music from an early age, learning his piano skills through Jazz. Once he had become comfortable on the piano he switched his focus to synthesizers and acoustic drums. As a result, he naturally started exploring electronic music production.

Max uses his many influences to create his own craft. Usually dynamic, his productions can be soft or radically heavy, sometimes melancholic or uplifting. Max navigates between an Organic House & Exotic Downtempo style and some Melodic & Afro Techno sonorities. The most important is to transmit emotions anyway.

On stage Max TenRoM mixes electronic and acoustic sonorities with his synths, machines and acoustic drums. He uses all his energy to add live Bongos and Darbouka fills to make his liveset a complete audiovisual performance. He recently played with Acid Arab, Monkey Safari, Sam Paganini, Joachim Pastor, Sorä, Unders, Tebra, Worakls or Joris Delacroix to name a few. Counting millions of plays and regularly in the top Beatport, his music is released on various renowned labels, well received in the musical industry and played by big channels and talented artists all over the world.
