Un grand bravo à [French Candy](#) pour leur victoire au DISCORD DJ  
CONTEST !!

## AN ATYPICAL PERFORMANCE

To give an authentic perspective of what their show represents, French Candy had the idea to realize a Showreel in a festival environment to allow show organizers to discover *in situ* the scenic and musical ingredients of the duo.

### 2 hours of show combining audio and video

It's in a pop/dance and electro universe that the duo reveals their set in the atypical place of La Villa Margot, emblematic restaurant of the city of Romans-sur-Isère, France.

A love story told musically and visually.

# DREAMS COME TRUE

It's the name of their first album told in 12 tracks. This dream project became reality thanks to the support of their fans who contributed to the couple's crowdfunding.

**Dreams Come True** offers an energetic and festive electro sound, realized in co-production with the multi-instrumentalist DJOSH.

The album is distributed by Universal Music France (MCA), under the label AG Group and the management of Bella Music Agency which shows the strength of this first opus!

## The French duo plays cards on tables with this heady song

**Cards Down** is the main track of the album designed to play on the emotions of the audience.

The clip puts us in the shoes of a waiter and a pusher who go all in for a better life.

A pop/funk atmosphere with a jovial melody, mixed with surprising voices that come straight from Tennessee.
